

IN THE COURT OF COMMON PLEAS  
CUYAHOGA COUNTY, OHIO

CLINT YOBY, *et al.*

Plaintiff

v.

CITY OF CLEVELAND

Defendant

Case No. CV-15-852708

Judge Janet R. Burnside

**FOURTH CONSOLIDATED**  
**AMENDED CLASS ACTION**  
**COMPLAINT**

WITH JURY DEMAND

**PREAMBLE**

Plaintiffs Clint Yoby, Tremont Scoops LLC, 2362 Professor Avenue LLC (collectively, “Tremont Scoops”) and Tymex Plastics, Inc. (together with Yoby and Tremont Scoops, the “Plaintiffs”) bring this consolidated amended class-action complaint against Defendant City of Cleveland (“City” or “Defendant”) on behalf of themselves and on behalf of a proposed class of all similarly-situated persons (the “Class”).<sup>1</sup>

**INTRODUCTION**

1. For over a decade, Cleveland Public Power (“CPP”) concealed from the public its unlawful extraction of tens of millions of dollars from its customers: CPP included in customers’ bills charges that CPP was not authorized by law to assess.

2. CPP charged customers an *Environmental and Ecological Adjustment* (the “Environmental Adjustment”). The Environmental Adjustment was charged to all types of customers – residential, commercial, and industrial. The Environmental Adjustment can only legally be made in order to cover “costs of special apparatus and equipment required for

---

<sup>1</sup> By way of this amendment, Plaintiff Yoby drops his consumer-protection claim, which has been alleged by Ms. Paul in a related action. *See Reagan v. Ranger Trans., Inc.*, 104 Ohio App.3d 15, 18 (11th Dist. 1995) (“the proper procedure to dismiss claims in a multi-count complaint” is to file an amendment); *accord Savage v. Cody-Zeigler, Inc.*, 2006-Ohio-2760, at ¶¶34-35 (4th Dist.).

compliance with Federal, State or City environmental protection laws and directives,” and/or charges levied on the Division of Light and Power in lieu of precise compliance with the identified statutes.

3. At all times relevant, CPP maintained no contemporaneous documentation or accounting records identifying a single expense or invoice which CPP designates as an Environmental Adjustment cost, and had no reasonable foundation upon which the Environmental Adjustment was billed to customers.

4. Moreover, since 1974, when the ordinance permitting an Environmental Adjustment was enacted, CPP has never bothered to reconcile the charges assessed as Environmental Adjustments with any actual environmental or ecological related costs which the utility has recovered from customers.

5. In 2013, the former director of the Cleveland Department of Public Utilities (DPU) first learned of this CPP charge and requested an accounting of these costs. CPP responded by retroactively attempting to justify these charges with expenses that had nothing at all to do with environmental-protection compliance. The director thereafter prohibited CPP’s use of the Environmental Adjustment charge going forward.

6. Between 2001 and May 2013, when the use of the Environmental Adjustment was initially terminated, CPP had assessed customers over \$87.8 million in unsubstantiated Environmental Adjustment charges. In December of 2016, CPP resumed its improper and unlawful use of the Environmental Adjustment which is once again being assessed to customers across all customer classes.

7. CPP further failed to disclose the Environmental Adjustment on customers’ monthly billing statements. Instead, CPP hid the Environmental Adjustment in another line-item: the *Energy Adjustment Charge* (the “Energy Charge”). The Energy Charge is limited

by ordinance to an additional incremental charge for “excess fuel and power production and purchase power costs,” in order to cover fluctuations in the price of energy. The Energy Charge and its governing ordinance have no relation to special environmental-compliance apparatus and equipment. Thus, even the most diligent customer had no way of knowing (1) that CPP was including the Environmental Adjustment in the customer’s bill; (2) the amount of that Adjustment; or (3) the reasons why the Adjustment was being made.

8. CPP hid and levied the improper Environmental Adjustments on the bills of all customers to whom it made an Energy Charge.

9. CPP engaged in this unlawful, unfair, and fraudulent scheme to adjust its revenues, without first obtaining the legally-required approvals, in order to: a) meet its debt obligations; b) grow its budget beyond what might have been politically feasible; and c) artificially manipulate its rates in an effort to create the appearance that CPP was competitive in the marketplace. Moreover, CPP did all of the above while avoiding the scrutiny of Cleveland City Council, bondholders, CPP customers, and Cleveland voters.

10. Defendants also breached the electrical services agreement by failing to prorate EEA charges to Cleveland Public Power’s customers on a ¢/KW.-hr. basis, as is required by the Electrical Services Agreement and §523.17, and assessing EEA charges in a discriminatory manner in violation of the Supreme Court’s decision in *Orr Felt Co. v. City of Piqua*, 443 N.E.2d at 522-25. *See, e.g.*, §523.17 (providing that the EEA “shall be prorated on a ¢/KW.-hr. basis”).

11. Starting in November 2004, and running through April 2013, Defendants disregarded the terms of the Electrical Services Agreement and the requirements of §523.17, and began allocating the EEA almost entirely to Cleveland Public Power’s commercial and industrial customer base. Remarkably, between 2008 and 2010, Defendants allocated over

\$17.76 million in EEA charges to the commercial and industrial customers, while simultaneously giving the residential customers an EEA “credit” of over nine-hundred thousand dollars. Defendants’ disproportional allocations of the EEA was a clear violation of the terms of the Electrical Services Agreement and the City’s own Codified Ordinances, and is unreasonable and constitutes unlawful discrimination under applicable law.

12. In other years, including 1997-2001, Defendants charged residential customers an EEA based upon Mils Billed as a rate of 16-28% more than it charged commercial customers disregarding the terms of the Electrical Service Agreement and the requirements of §523.17 constituting a disproportional, discriminatory and unreasonable allocation of the EEA.

13. CPP used the Environmental Adjustment to freely manipulate customers’ bills on a monthly basis. It assessed the Environmental Adjustment not based upon any actual expenses or contemporaneously recorded environmental or ecological costs, but rather based upon what it could get away with charging customers in serving its own purpose.

14. In order to increase or adjust the rates it charges customers, CPP is required to go through a formal process, including public hearings and the approval of City Council. If CPP had been required to go to rate-payers, voters, or City Council for rate increases, its budgets and accounting practices would have been scrutinized, its management techniques would have been questioned, and its ability to realistically compete in the marketplace would have been more closely analyzed. Instead, CPP’s improper use of the Environmental Adjustment, secretly imposed on customers’ bills, allowed the utility to shroud its true financial condition and its operating shortfalls from proper oversight and public scrutiny.

15. In response to this lawsuit, lacking any existing documentation or financial records which support these charges, CPP has retroactively manufactured over \$850 million

in expenses which it now claims, for the first time, are Environmental Adjustment charges owed by customers to the utility under Cleveland Codified Ordinance (“CCO”) § 523.17. These expenses, which CPP contends can be retroactively recovered from customers as Environmental Adjustment costs, date back to 1978 and include charges for vehicles, the purchase of fencing, street-lighting projects, and nearly \$250 million in interest, none of which are permitted costs under the ordinance.

16. This class action seeks to end CPP’s wrongful conduct, and to set customers’ accounts aright, including through restitution of all funds extracted by CPP beyond what was lawfully-authorized by governing ordinance and the uniform agreements between CPP and its customers. Further, this action seeks to shield customers from CPP’s collection efforts on any portion of the \$850 million in manufactured Environmental Adjustment costs it now claims are owed by customers.

#### **THE PARTIES**

17. Plaintiff Clint Yoby (“Yoby”) is the owner of property located at 2099 West 10th Street in Cleveland, Ohio. Mr. Yoby has resided at this address since purchasing the home in July 2004, and has been a customer of CPP at his Cleveland residence continuously from July 2004 to the present. Mr. Yoby’s home, which was originally designed as a duplex, has two CPP electric meters, for which he receives two separate bills. *E.g., see* Exhibit 1, September 29, 2011 Billing Statement for Account No. ending 4465; *see also* Exhibit 2, September 29, 2011 Billing Statement for Account No. ending 4473.

18. Plaintiff Tremont Scoops LLC (“Tremont”) is an old-fashioned ice cream parlor located at 2362 Professor Avenue, Cleveland, Ohio 44113. Tremont Scoops is a CPP customer. A copy of Tremont’s bills from CPP is attached as Exhibit 3 hereto.

19. Plaintiff 2362 Professor Avenue LLC (“2362 Professor Avenue”) is the holding company that owns Tremont Scoops LLC and all of its assets. 2362 Professor Avenue is also a CPP customer. A copy of 2362 Professor Avenue’s bills from CPP is also attached as Exhibit 3 hereto.

20. Plaintiff Tymex Plastics, Inc. (“Tymex”) is a full service plastic compounder and recycler located at 5300 Harvard Avenue, Cleveland, Ohio 44105. Tymex was formerly a CPP customer. A copy of one of Tymex’s bills from CPP is attached as Exhibit 4 hereto. Defendant City of Cleveland is a municipal corporation of the State of Ohio. The City owns and operates CPP. CPP is the largest municipally-owned electric utility in the State of Ohio and one of the largest in the United States. CPP provides service to nearly 80,000 customers throughout the City of Cleveland. The City is liable for the wrongful conduct of CPP alleged in this complaint.

21. The City’s operation of CPP is a “proprietary function” under the Political Subdivision Tort Liability Act; as such, the City is not entitled to tort immunity. *See* R.C. §§ 2744.01(G)(2)(c), 2744.02(B)(2).

#### **FACTUAL ALLEGATIONS**

22. Defendant sells power to its customers under fixed-rate schedules based on monthly consumption. *See* CCO §§ 523.02-523.065.

23. In order to account for energy-production costs, which may fluctuate from month to month (primarily due to fluctuations in the market price of gas), the fixed-rate schedules are subject to the Energy Charge. *See* CCO § 523.21(a) (“An additional incremental charge for excess fuel and power production and purchase power costs may be applied to the rates” set forth in the schedules.)

24. CPP is also permitted to assess an Environmental Adjustment on customers' bills, but only to cover the "costs of special apparatus and equipment required for compliance with Federal, State or City environmental protection laws and directives." *See* CCO § 523.17(a).

25. The costs for which an Energy Adjustment can be made include "emission control equipment for sulphur, nitrogen, and particulate emissions," "control equipment for protection of the natural water supply," and "power supply apparatus and power from remote sources," as well as any "research and development charges [or] any other charges levied on the Division of Light and Power in lieu of precise compliance with statutes and directives." *See* CCO § 523.17(b).

26. The Environmental Adjustment "may be applied to [all] rate schedules." *See* CCO § 523.17(a). And CPP did apply the Environmental Adjustment to all rate schedules. *See* CCO §§ 523.02(d); 523.021(d); 523.03(f); 523.04(o); 523.043(m); 523.047(m); 523.048(j); 523.05(g); 523.06(c); 523.065(c).

27. The Energy Charges and Environmental Adjustments were allocated and assessed across all CPP customer rate classes: residential, commercial, and industrial. Thus, to the extent the Charges or Adjustments were improper, they were improper for every customer, regardless of the identity or class of the customer, the customer's rate of consumption, or the rate schedule under which the customer was charged.

28. Although the law only allows CPP to charge the Environmental Adjustment to cover the costs of *special apparatus and equipment required for compliance with environmental-protection laws and directives* or to *charges related to environmental compliance*, CPP included costs that were not for special apparatus and equipment required

for compliance with environmental-protection laws and directives or other charges levied in lieu of precise compliance with the identified laws or directives.

29. Because CPP maintained no contemporaneous records of any actual identified invoices or charges supporting its use of the Environmental Adjustment charge, when challenged on this process, it has instead been forced to retroactively manufacture lists of expenses in an attempt to justify the unsupported and illegal charges it assessed to customers. For example, in 2013, when requested by the director of the Cleveland Department of Public Utilities to reconcile the Environmental Adjustment charges billed to customers to the governing city ordinance § 523.17, CPP generated a 2012 Ecological Expenses budget including \$116,128 for “Landscaping/Tree-Trimming”; and the 2013 Ecological Expenses budget included \$543,449 for “Car/Truck Parts.” The 2015 budget proposal included staffing costs for routine maintenance and special-project staffing costs.

30. In 2016, in response to this lawsuit, CPP has crafted a new list of over \$850 million in Environmental Adjustment expenses it now claims are owed to the utility by customers. These expenses date back to 1978 and include charges for vehicles, the purchase of fencing, street-lighting projects, and nearly \$250 million in interest.

31. Absent any record correlating the Environmental Adjustments charged to customers to any actual environmental or ecological expenses incurred by CPP, the amount billed to customers was simply based upon the monthly whim of CPP’s commissioner, who assessed this fee without any reasonable foundation, documentation, reconciliation, or public disclosure in the process.

32. Over the course of at least a decade, CPP has wrongfully extracted tens of millions of dollars from customers through the use of the Environmental Adjustment charge. Further, in its effort to retrospectively justify these charges, it has included in its

Environmental Adjustment calculations the costs of items that were not special apparatus and equipment required for compliance with environmental-protection laws and directives.

33. CPP does not disclose to customers that it is charging them an Environmental Adjustment. Instead, CPP internally embeds the Environmental Adjustment in the Energy Charge so the bills sent to customers only list the “Energy Adjustment Charge” as the line-item and fail to reflect the inclusion of any Environmental Adjustment.

34. CPP has affirmatively and fraudulently concealed from customers and otherwise intentionally failed to disclose: that customers are being charged the Environmental Adjustment; the amount of the Environmental Adjustment; and that the funds collected by the Environmental Adjustment were assessed for the cost of items other than those permitted by ordinance.

35. Defendants also breached the electrical services agreement by failing to prorate the EEA to Cleveland Public Power’s customers on a ¢/KW.-hr. basis, as is required by the Electrical Services Agreement and §523.17, and assessing EEA charges in a discriminatory manner in violation of the Supreme Court’s decision in *Orr Felt Co. v. City of Piqua*, 443 N.E.2d at 522-25. *See, e.g.*, §523.17 (providing that the EEA “shall be prorated on a ¢/KW.-hr. basis”).

36. Mr. Yoby, Tremont Scoops and Tymex Plastics and class members exercised due diligence in reviewing their bills. Given that the Environmental Adjustment did not appear on those bills, Mr. Yoby, Tremont Scoops and Tymex Plastics and class members had no opportunity to discover their causes of action prior to the running of any applicable statutes of limitations.

37. Therefore, Defendant should be estopped from relying upon any affirmative defense of the statute of limitations. And any statute of limitations should be tolled as a result of Defendant's fraudulent concealment of its unlawful conduct.

#### **CLASS ALLEGATIONS**

38. This action is brought on behalf of the following Class:

**All Cleveland Public Power customers who paid bills that included an "Energy Adjustment Charge" during a time when Cleveland Public Power was making an Environmental Adjustment in the billed Energy Adjustment Charge.**

39. This Class is limited to the time period during which CPP included an Environmental Adjustment as a component of the "Energy Adjustment Charge" that appeared on customers' bills.

40. Excluded from the Class are the Court and its staff, as well as counsel, and the immediate family members of the same.

41. The Class is so numerous that the joinder of all members is impracticable: there are approximately 80,000 CPP customers.

42. There are questions of law or fact common to the Class, *inter alia*: whether CPP complied with CCO § 523.17, and whether it included in its calculation of the Environmental Adjustment items which were not special apparatus and equipment required for compliance with environmental-protection laws and directives and/or otherwise were charges levied in lieu of precise compliance with the identified statutes.

43. The representative plaintiffs are typical of the Class: Mr. Yoby, Tremont Scoops, and Tymex Plastics' claims arise from the same course of conduct that gives rise to the claims of other class members, and their claims are based on the same legal theory. To wit, Defendant charged Mr. Yoby, Tremont Scoops, and Tymex Plastics for Environmental

Adjustments, which he paid, and which were not identified actual costs of special apparatus and equipment required for compliance with environmental-protection laws and directives and/or charges levied in lieu of precise compliance with the identified laws or directives.

44. The representative plaintiffs will fairly and adequately protect the interests of the Class: Mr. Yoby, Tremont Scoops, and Tymex Plastics has retained experienced counsel for the Class and is committed to placing the interests of the Class before their own individual interests.

45. A class action is appropriate under Civil Rule 23(b)(3) because the questions of law or fact common to class members predominate over any questions affecting only individual members, and a class action is superior to other available methods for fairly and efficiently adjudicating the controversy.

46. A class action is appropriate under Civil Rule 23(b)(2) because the Defendant has acted on grounds that apply generally to the Class, such that final injunctive relief or corresponding declaratory relief is appropriate respecting the Class as a whole.

**FIRST CAUSE OF ACTION**  
**Declaratory, Injunctive and Other Equitable Relief**

47. This cause of action, which incorporates all of the other allegations in this complaint, is brought under the law of equity and seeks declaratory, equitable, and injunctive relief, and it is brought on behalf of the Class.

48. Defendant has improperly calculated Plaintiffs' and class members' bills and account balances by imposing an Environmental Adjustment which was not based on actual costs and otherwise violated CCO § 523.17.

49. Instead, Defendant used the Environmental Adjustment charge as a vehicle to freely manipulate customer's bills on a monthly basis in order to serve its own purposes. Defendant did not assess the Environmental Charge based upon any actual expenses

contemporaneously identified or based upon any costs which were recorded as such in the books and records maintained by CPP. CPP recognized no unrecovered expenses for Environmental Adjustment costs in its financial statements—and, to date, has failed to amend its financial statements to reflect the \$850 million unrecovered assets which it has identified and contends is an unrecovered asset of CPP. Further, CPP did not, at any time relevant to the assessment of the Environmental Adjustment charges, reconcile these charges with actual costs incurred pursuant to CCO § 523.17.

50. Defendants also breached the electrical services agreement by failing to prorate EEA charges to Cleveland Public Power's customers on a ¢/KW.-hr. basis, as is required by the Electrical Services Agreement and §523.17, and assessing EEA charges in a discriminatory manner in violation of the Supreme Court's decision in *Orr Felt Co. v. City of Piqua*, 443 N.E.2d at 522-25. *See, e.g.*, §523.17 (providing that the EEA "shall be prorated on a ¢/KW.-hr. basis").

51. Retrospectively, when attempting to account for the unlawful charges assessed to customers under CCO § 523.17, Defendant included items as recovered costs that were not special apparatus and equipment required for compliance with environmental-protection laws and directives and/or charges levied in lieu of precise compliance with the identified statutes.

52. Plaintiffs seek a declaration that Plaintiffs' and class members' bills were improperly calculated because they included improper Environmental Adjustments, or were based upon unaccounted-for costs fabricated by CPP as unrecovered Environmental Adjustment costs, and that all accounts must be re-calculated.

53. Plaintiffs seek a permanent injunction to prevent Defendant from billing customers for an Environmental Adjustment without expressly disclosing the charge on customer's bills and without correlating the amounts charged to qualified expenses incurred.

54. Plaintiffs seek a permanent injunction enjoining improper calculation of Environmental Adjustments, and enjoining Defendant from taking any action to collect on improperly-calculated accounts.

55. Plaintiffs also seek equitable relief in the form of restitution of all funds unlawfully collected on improperly-calculated accounts and an order in equity reforming such bills and re-calculating such accounts.

56. Plaintiffs' equitable restitution claim is brought, in part, under the law of unjust enrichment: Plaintiffs and class members conferred benefits on the Defendant; that is, the Class paid artificially-inflated bills. Defendant knows of these benefits and has retained these benefits under circumstances where it would be unjust to do so. To wit, Defendant collected funds from the Class based on Environmental Adjustments that included items other than special apparatus and equipment required for compliance with environmental-protection laws and directives and/or charges levied on the Division of Light and Power in lieu of precise compliance with the identified statutes.

57. Under the law of equity, and given these circumstances, Defendant should be ordered to disgorge the funds unjustly collected and otherwise make full restitution to the Class.

## **SECOND CAUSE OF ACTION**

### **Fraud**

58. This cause of action, which incorporates all of the other allegations of this complaint, is for common-law fraud, and it is brought on behalf of the Class.

59. Defendant represented in billing statements to Plaintiffs and class members that the "Energy Adjustment Charge" which appeared on customers' bills was lawfully calculated. In truth, however, that line-item was not properly calculated and included improper Environmental Adjustments.

60. Defendant intentionally concealed from Plaintiffs and class members that the Environmental Adjustments were not based on actual environmental and ecological expenses permissible under CCO § 523.17, but were instead assessed based upon the monthly whim of CPP's commissioner, who made these adjustments without any reasonable foundation, authority, documentation, reconciliation or public disclosure, in order to manipulate rates to meet CPP's desired outcomes.

61. Defendant intentionally concealed from Plaintiffs and class members that the Environmental Adjustments included costs that were not limited to special apparatus and equipment required for compliance with environmental-protection laws and directives and/or charges levied on the Division of Light and Power in lieu of precise compliance with the identified statutes and that failed to comply with CCO § 523.17.

62. Defendant's representations and concealments about the bills were material to class members' decisions to pay the bills. That is, absent the Defendant's sending bills which were represented to be correct and due-and-owing, and which concealed the manner in which the bills were unlawful, no class member would have paid the bill containing the Energy Adjustment charge.

63. Defendant's representations were false: the bills were based on Environmental Adjustments that were not for special apparatus and equipment required to comply with environmental-protection laws and directives and/or charges levied in lieu of precise compliance with the identified statutes, but were simply assessed by CPP, without reasonable foundation or authority, in order to artificially manipulate rates for its own purposes.

64. Furthermore, Defendant knew that the bills were false: indeed, when required to substantiate these costs after years of assessing the Environmental Adjustment charge to customers, CPP manufactured retrospective internal budgets reflecting millions of dollars of

costs under the “Ecological Budget,” many of which had nothing to do with purchase costs for special apparatus and equipment required for compliance with environmental-protection laws and directives and/or charges levied on the Division of Light and Power in lieu of precise compliance with the identified statutes.

65. Defendant knew that at the time the Environmental Adjustments were billed to customers, the charges were not based upon the actual costs of any identified environmental or ecological expenses incurred by CPP; rather, the Adjustments were simply assessed to all customers at the discretion of CPP’s Commissioner in an amount which he unilaterally and unlawfully elected to charge.

66. Defendant intended to mislead class members into relying on the bills and paying the bills. Class members justifiably relied on Defendant’s representations and concealments.

67. Therefore, Defendant committed fraud. As a direct and proximate result of this fraud, class members suffered injury.

**THIRD CAUSE OF ACTION**  
**Breach of Contract**

68. This cause of action, which incorporates all of the other allegations in this complaint, is for breach of contract, and is brought on behalf of the Class.

69. Plaintiffs and each class member entered contracts with Defendant. The contract is created by operation of law, CCO § 523.19(a), which provides that “[b]y application for and receipt of electric service, each consumer shall be deemed to have entered into an electric service agreement.”

70. The terms of that contract are established by operation of law, CCO § 523.19(b). Article 3 of the electric service agreement provides that consumers shall pay in accordance with the terms, conditions, and applicable rate schedule established by the City

and approved by City Council, and that such rates, terms, and conditions are incorporated into the agreement.

71. One of the incorporated terms of the electric service agreement is the provision that allows Defendant to charge an Environmental Adjustment, but only to cover those costs of special apparatus and equipment required for compliance with environmental-protection laws and directives, or which were levied on the Division of Light and Power in lieu of precise compliance with environmental protection laws, statutes and directives. *See* CCO § 523.17.

72. One of the incorporated terms of the electric service agreement is the provision that allows Defendant to charge for an Energy Adjustment Charge but only for excess fuel and power production and purchase power costs. *See* CCO § 523.21.

73. Defendant breached the electric service agreement by charging Plaintiffs and class members an Environmental Adjustment that was not based on actual costs of special apparatus and equipment required for compliance with environmental-protection laws and directives or which were levied on the Division in lieu of precise compliance with those laws, but rather was unilaterally charged to customers at the whim of the CPP Commissioner, without reasonable foundation, authority, documentation, reconciliation, or public disclosure, in order to manipulate rates to meet CPP's desired result.

74. Defendant breached the electric service agreement by charging Plaintiffs and class members an Environmental Adjustment that was not limited to covering the actual costs of special apparatus and equipment required for compliance with environmental-protection laws and directives or levied on the Division in lieu of precise compliance with those laws.

75. Defendant breached the electric service agreement by charging its customers during the class period for previously unaccounted for unrecovered expenses that are up to 38 years old. Any recoupment or further attempt to recoup Environmental Adjustment costs that date back to 1978, which total over \$850 million and include interest charges of nearly \$250 million, as well as other costs that are not environmental or ecologically related expenses, breaches the electric services agreement and violates CCO § 523.17. These costs, which were assessed against Plaintiffs and the Class, were not contemporaneously reported anywhere in the financial records of CPP as Environmental Adjustment costs pursuant to CCO § 523.17, nor were the \$850 million of allegedly unrecovered costs identified or, at any time relevant, recognized as a recoverable asset of CPP in its financial books or records.

76. Further, to date, CPP has failed to update its financial statements to reflect this newly-manufactured asset, or any portion thereof, which is indicative that its right to collect any of these alleged unrecovered costs are illegitimate and constitutes a breach of contract.

77. CPP breached the electric service agreement by fabricating an aggregation of claimed recoverable costs, which have yet to be recovered, and which have not previously been recognized in 38 years of financial reporting by the utility. Further, CPP now retrospectively claims it has the right to use this fabricated, unreconciled aggregated slush fund as its vehicle to manipulate rates, without authority and without transparency, which is in breach of contract.

78. Defendant breached the electric service agreement by including in the Energy Adjustment charge an Environmental Adjustment which consisted of charges other than those for excess fuel and power production and purchase power costs as prescribed pursuant to CCO § 523.21.

79. Defendants also breached the electrical services agreement by failing to prorate EEA charges to Cleveland Public Power's customers on a ¢/KW.-hr. basis, as is required by the Electrical Services Agreement and §523.17, and assessing EEA charges in a discriminatory manner in violation of the Supreme Court's decision in *Orr Felt Co. v. City of Piqua*, 443 N.E.2d at 522-25. *See, e.g.*, §523.17 (providing that the EEA "shall be prorated on a ¢/KW.-hr. basis").

80. As a result of Defendant's breach of contract, Plaintiffs and class members suffered damages, including paying charges that were unauthorized by the agreement or by governing law.

#### **PRAYER FOR RELIEF**

Therefore, Plaintiffs seek judgment against the Defendant, including the following relief:

- A. An order certifying this action as a class action under Civil Rule 23;
- B. An order appointing Mr. Yoby, Tremont Scoops, and Tymex Plastics as the class representatives;
- C. An order appointing the undersigned counsel as class counsel;
- D. Actual damages;
- E. Attorney's fees;
- F. Costs of suit;
- G. Pre- and post-judgment interest;
- H. Declaratory, equitable, and injunctive relief; and
- I. Such other relief as this Court finds just and proper.

## **JURY DEMAND**

Plaintiffs demand a trial by jury.

Respectfully submitted,

## CLEVELAND PUBLIC POWER'S RESIDENTIAL RATES

The following schedule is applicable to private single residences or to any individually metered family accommodation when service is used primarily for domestic and household purposes, as distinguished from commercial, professional or industrial purposes.

Kilowatt Hour Charge Per Month	Summer	Winter
For the first 1,000 kilowatt hours	\$0.0774/kwh	\$0.0655/kwh
For all kilowatt hours over 1,000	\$0.0752/kwh	\$0.0353/kwh

The summer rates are in effect for monthly bills issued during the months of June, July, August, September and October. The winter rates are in effect for monthly bills issued during the months of November, December, January, February, March, April and May.

In addition to the Kilowatt Hour Charges, an Energy Adjustment Charge is calculated each month. This charge is stated on the front of this billing. This charge, multiplied by the total kilowatt hours used in the month is included in the bill.

A cash deposit equal to one month's estimated bill may be required as security for the payment of services rendered. Failure of the customer to give advance notice of termination of service may result in the forfeiture of the security deposit.

If the bill rendered to the customer is not paid on or before the due date stated thereon, the customer's account shall be termed as "delinquent" and shall be subject to discontinuation of service. The customer will receive two disconnection notices by first class mail prior to the date after which service could be discontinued. If the customer does not respond, electric service will be disconnected.

A copy of all rates, rules and regulations governing the sale of electricity by Cleveland Public Power is available upon request.  
Or visit our website at [www.cpp.org](http://www.cpp.org)

The City of Cleveland is taking a new approach to energy with the CREG Center; an innovative facility that will recycle up to 25% of the municipal solid waste (msw) collected by the City and utilize the post recycled msw to generate power locally. To learn more about this exciting new venture visit <http://www.cpp.org/CREGCenter.html>

CPP is working for you! Over the next few weeks our crews will begin installing lampposts for the LED Streetlight Pilot Project in Wards 1 from Lee & Harvard to I-480 and in Ward 13 from Wildlife Way & Pearl Road south to Brookpark Road. We are testing the technology of several vendors to ensure the City chooses the best product to perform well in Cleveland's challenging climate. Visit our [www.cpp.org](http://www.cpp.org)

Efficiency Smart, Cleveland Public Power's partner in providing energy efficiency services, offers \$50 for recycling a secondary (working) fridge/freezer. From May 1 - July 31, the individual who recycles Ohio's oldest fridge can win up to \$1,250. Visit [www.efficiencysmart.org](http://www.efficiencysmart.org) for details.
